

DON'T MISS OUT!!

Dear Signal Group Client,

We are excited to announce that we have refreshed our Signal Group website, and our visitors can enjoy a modern, clean and highly informative site.

Part of our refresh is a commitment to providing the most relevant and recent industry news, and we do this through the website and our social media platforms. If you had been following Signal on Facebook, LinkedIn or Twitter, you would have been quickly informed about the SARS and B-BBEE Commission MoU, the invalid B-BBEE certificate warning and the latest about the YES Programme.

The website also provides a platform to highlight our Power of One campaign. It is here that we share the success stories and encourage every person and business owner to embrace the Power of One and change lives – one life at a time.

We encourage you to visit the website and connect with us on social media, so you can stay informed about developments within the skills development, B-BBEE and business advisory space.

Regards,

Signal Group Management
