

HOOP VIR LANDBOU

Laat die natuur vir jou geld maak

'n Konferensie oor herlewingslandbou en grondgesondheid – KAAPSTAD

'N STREWE NA HERLEWINGSLANDBOU

Herlewingslandbou is boere se kostedoeltreffende wapen teen stygende insetkoste en klimaatsverandering, deur natuurlike prosesse weer optimaal te laat funksioneer. **Landbouweekblad** – in samewerking met die Soil Health Support Centre en IntelliGro – bring internasionale **sprekers, kenners** en suksesvolle Suid-Afrikaanse **boere** byeen vir 'n derde Kaapse konferensie oor herlewingslandbou en grondgesondheid, om só hoop te bring vir honderde boere wat in 'n onverbiddelike kosteknyptang vasgevang is.

Internasionale sprekers

Prof. Buz Kloot

Prof. Buz Kloot het sy loopbaan as chemiese ingenieur in Namibië begin. Buz het voorgraads aan die Universiteit van Kaapstad studeer, en later die grade MBA en PhD aan die Universiteit van Suid-Carolina in Amerika verwerf. Hy is betrokke by verskeie projekte rondom herlewingslandbou en grondgesondheid. Buz se werk rondom kunsmisbesparing en dekgewasse word as baanbrekerswerk beskryf.

Mnr. Jason Carter

Mnr. Jason Carter is 'n progressiewe boer wat al meer as 23 jaar met mielies, sojabone en katoen in die Amerikaanse deelstaat Suid-Carolina boer. Benewens die aanplanting van verskeie dekgewasse om grondgesondheid te verbeter, meen Jason biologiese grondtoetse kan boere se besluitneming met betrekking tot voedingstofbestuur baie verbeter. Jason eksperimenteer ook graag met werktuie en toerusting.

Inligting

- **Datum en plek:** Dinsdag 19 Maart 2019, Morgensrust, Owlstraat 60, Joostenbergvlakte.
- **Besprekings:** goo.gl/gx8Jom (Middagete, koffie/tee en verversings is ingesluit by die kaartjieprys.)
- **Navrae:** Jacolette Kloppers – e-pos: jacolette.kloppers@landbou.com; tel. 021 406 2594.
- **Program:** Die volledige program is hierby aangeheg.
- **Media-akkreditasie:** Jacolette Kloppers – e-pos: jacolette.kloppers@landbou.com

HOPE FOR AGRICULTURE

Let nature earn you money

A conference on regenerative agriculture and soil health – CAPE TOWN

STRIVING TOWARDS REGENERATIVE AGRICULTURE

Regenerative agriculture is farmers' cost-effective weapon against rising input costs and climate change, by allowing natural processes to function optimally again. **Landbouweekblad** – in conjunction with the Soil Health Support Centre and IntelliGro – is bringing world-famous **speakers, experts** and successful South African **farmers** together for a third Cape Town based conference on regenerative agriculture, in order to give hope to hundreds of farmers who are caught in a relentless vice of cost.

International speakers

Prof Buz Kloot

Prof Buz Kloot started his career as a chemical engineer in Namibia. Buz completed his graduate studies at the University of Cape Town and completed his MBA and PhD degrees at the University of South Carolina in America. He is involved in various projects on regenerative agriculture and soil health. Buz's work on fertiliser saving is considered as groundbreaking.

Mr Jason Carter

Mr Jason Carter is a progressive farmer that has been farming with maize, soya beans and cotton for 23 years in the American state of South Carolina. Besides planting various cover crops to improve soil health, Jason believes biological soil testing can significantly improve farmers decision-making with regards to nutrient management. Jason also enjoys experimenting with equipment and machinery.

Information

- **Date and venue:** Tuesday 19 March 2019, Morgensrust, 60 Owl Street, Joostenbergvlakte.
- **Reservations:** goo.gl/gx8Jom (Lunch, coffee/tea and refreshments are included in the ticket price.)
- **Enquiries:** Jacolette Kloppers – email: jacolette.kloppers@landbou.com; tel. 021 406 2594.
- **Programme:** The complete programme is attached to this message.
- **Media accreditation:** Jacolette Kloppers – email: jacolette.kloppers@landbou.com

Third Annual Soil Health Day (in collaboration with Landbouweekblad)

Striving towards regenerative agriculture

Tuesday 19 March 2019

Venue: Morgensrust, 60 Owl Street, Joostenbergvlakte

TIME	TOPIC	SPEAKER
07:00 – 07:45	Registration and coffee	
08:00 – 08:10	Devotional opening	Ds Erika Ferreira NHK, Bellville
08:10 – 08:20	Opening address and introduction	Chris Burgess Editor of Landbouweekblad
08:20 – 09:15	A soil health mindset – what is it and why does it matter?	Prof Buz Kloot Associate professor University of South Carolina, USA
09:15 – 09:30	Q & A	
09:30 – 10:10	Cover crops as my “tools” in conversion to regenerative agriculture over the last seven years	Jason Carter Regenerative farmer South Carolina, USA
10:10 – 10:20	Q & A	
10:20 – 11:00	Cover crops in deciduous fruit orchards: Why are they important?	Matthew Addison Programme manager Crop Protection, Hortgro Science & Stellenbosch University
11:00 – 11:20	COFFEE / TEA	
11:30 – 12:15	How much fertilizer do we really need and what are we measuring in our soils?	Prof Buz Kloot & Jason Carter
12:20 – 12:45	Lessons learnt about biological principles on a fruit farm	Hendrik Pohl Operations manager ZZ2 Fruit Farm, Ceres
12:50 – 13:15	Concepts for creating a natural “soil terroir” for unique wine production	Johan Reyneke Owner, Reyneke Wines, Stellenbosch
13:15 – 14:00	LUNCH	
14:05 – 14:40	Lessons from a recent USA tour of regenerative farms in the Midwest – how can we apply these principles in the Western Cape’s grain farming industry?	Lisa Smorenburg Researcher Tygerhoek Research Farm
14:45 – 15:30	My path on the regenerative agriculture journey – the difficulties and achievements	Bertie Coetzee Regenerative agriculture farmer Prieska, Northern Cape
15:30 – 16:00	Discussion; closing remarks	
16:00 – 16:30	COFFEE / TEA
